

Business Website Planning Checklist

For Kenyan businesses
Before requesting a quotation

01 STRATEGY

- ☐ Main website goal is defined
- ☐ Target customer is clear
- ☐ Primary visitor action is prioritised
- ☐ Customer questions are documented

02 DOMAIN & HOSTING

- ☐ Domain choice (.co.ke or .com) is agreed
- ☐ Business owns the domain account
- ☐ Hosting includes SSL and backups
- ☐ Support and upgrade options are known

03 STRUCTURE

- ☐ Homepage message is specific
- ☐ About and service pages are planned
- ☐ Portfolio, FAQ or blog needs are decided
- ☐ Contact details and service areas are accurate

04 CONTENT

- ☐ Website copy has an owner
- ☐ Real photos, projects and testimonials are ready
- ☐ Products, prices and delivery details are ready
- ☐ Calls to action match each page

05 SEO & DISCOVERY

- ☐ Customer search terms are considered
- ☐ Important services have dedicated pages
- ☐ Titles, descriptions and clean URLs are planned
- ☐ Images, internal links and local search are covered

06 PERFORMANCE & MOBILE

- ☐ Images will be compressed and resized
- ☐ Site will be tested on phones and tablets
- ☐ Buttons, forms, phone and WhatsApp links work
- ☐ Speed is prioritised over unnecessary effects

07 SECURITY

- ☐ HTTPS and strong passwords are enabled
- ☐ Two-factor authentication is considered
- ☐ Admin access is limited and documented
- ☐ Updates, malware protection and backups are planned

08 CONVERSION

- ☐ Value proposition is clear above the fold
- ☐ Genuine trust signals are included
- ☐ Visitors can call, WhatsApp, book or enquire easily
- ☐ Forms do not create unnecessary friction

09 MAINTENANCE

- ☐ Someone owns ongoing content updates
- ☐ Technical maintenance responsibility is agreed
- ☐ Broken links, forms and security are checked
- ☐ Analytics will inform future improvements

READY TO BUILD?

Start with the right structure.

Use this checklist before requesting a website quotation or planning consultation.
